NEW TEACHING CONCEPTS & APPROACH FOR THE NEW GENERATION

Digital classrooms with smart boards

More than 700 students from our very first batch
got their desired medical seats and ranks in NEET 2021

Sri Gosalites

...brand of future medicos

YOU ARE OUR TRUST,
YOU ARE OUR STRENGTH,
IT'S ALWAYS YOUR ACADEMY.

Dear Parents and Students,

The teaching team of Sri Gosalites Medical Academy has more than 25 years of working experience in various educational organizations. They are the driving force that has produced over 1000 doctors for the 2 Telugu speaking states. We don't stop at this; instead we work as a single-minded dedicated team for imparting quality education and producing more and more doctors. With the aim of bringing education closer to students of our village too, we have established the Sri Gosalites Medical Academy last year.

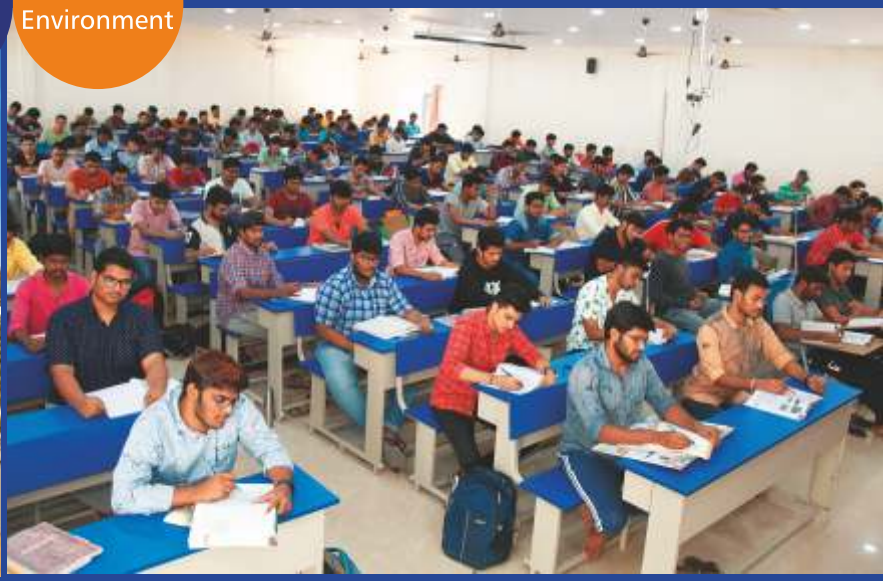
Our students are extremely satisfied with the academy which has laid foundation for their bright future. Their belief and encouragement has motivated us to strive even harder for success. Our students are our strength. This institute belongs to you, our students, the future medicos.

Yours affectionately,

V. Narendra Babu and SGMA team

4 Pillars of Sri Gosalites Pathway of Success

BOYS' CAMPUS



BOYS' AUDITORIUM (NEET Long Term Batch)

OUR GUIDING PILLARS & **DIRECTORS**

Our teaching team, with around 3 decades of vast experience in medical entrance coaching, works tirelessly towards helping our students achieve top ranks. All of them are also the academic directors at Sri Gosalites Medical Academy. Their guidance has helped thousands of students achieve their dream and secure top ranks in NEET. They interact with the students, resolve their doubts in the subjects and always motivate them by removing the fears. That's why our results are unique, our achievements are solid.

(NEET Long Term Batch)

Holistic Teaching **Approach**

Different students have different levels of intelligence. Everyone's learning method is different. One student grasps the essence of the subject immediately, while the others may understand it a little late. Few corporate educational institutions divide students into merit and average and are trained by different faculty. They give importance only to bright students. But, for us, all students are equal and everyone's success is equally important.

We follow a holistic teaching approach and give personal attention to each and every student in our class. We divide students into sections for the convenience of teaching and not on their merit basis. Similar coaching is given by expert senior faculty to all the students, from the first section to the last section. We teach them according to their level of understanding and propel each student to achieve success. We consider our ultimate success on the day every student who joins Sri Gosalites Medical Academy achieves the a medical seat.

Expert Guidance that Assures **Top NEET Ranks**

We don't encourage mugging up the answers, rather help our students understand the concepts thoroughly. We are confident enough that the students who are well-versed with their subject achieve better ranks in the exams.

We proudly say that ours is the one and only educational institution in both the Telugu states that is 100% digitized. Sri Gosalites Medical Academy digitized every classroom and continued teaching through the smart board without any hesitation from the day one itself.

Advanced **Classrooms**

If the classrooms are not pleasant, the students will not only get bored and irritated but also lack in concentration. So as to eradicate this problem, we have wide, airy classrooms with air conditioners to give our students a comfortable study environment. We conduct study hours under the guidance of the senior faculty every day and resolving doubts from time to time help the students move towards success with confidence. In addition to that, Sri Gosalites Medical Academy also strives hard to keep the students' minds pleasant by motivating them to avoid tension over the competitive examinations conducted across the country.

State-of-the-**art Labs**

Sir Gosalites Medical Academy has set up a state-of-the-art lab for the practical learning of Physics, Chemistry and Biology. Conducting practical experiments for students from the very first year is another specialty of us. This practical learning is useful for understanding each topic with clarity.

Comfortable **Hostels**

After growing up with parents, it is quite difficult for students to leave their homes and stay in a hostel. To manage with such situations, we have safe and comfortable residential facility for all our students. We strive to create a homely environment at our hostels. We have separate hostels for boys and girls with caretakers at each hostel. Healthy food is served at our cafeterias. To take care of students' health, we have a special medical care unit at our campus.

Sri Gosalites Medical Academy conducts review meetings with parents two to three times a month, so as to keep the parents updated about their child's progress. We also discuss with them about the steps to be taken to achieve a better NEET rank and involve every parent in the students' success.

It is a prestigious moment for everyone at Sri Gosalites Medical Academy as 700 students from our very first batch at Vijaywada secured top ranks in NEET-2021 and got medical seats in their desired colleges. Few of them even scored 600+ marks in NEET.
